November 7, 1956

Honorable Allen W. Dulles
Director
Central Intelligence Agency
Washington, D. C.

Dear Mr. Dulles:

Studies by the Telecommunications Planning Committee indicate that our point-to-point radio communications are vulnerable to intentional jamming.

The Committee wishes to obtain the views of your agency on this matter and has scheduled a conference to be held on December 6, 1956, at 10:00 A.M. to discuss countermeasures that may be applied to minimize the effect of jamming, possible action to be taken and commitments to be made. The individuals designated will be advised of the meeting place at a later date.

It is requested that technical and administrative representation from your agency with clearance to discuss SECRET material be present at this meeting.

Please furnish this office before the close of business November 19 with the names of persons that will attend the conference.

Sincerely yours,
